EDUCATION

Technische Hochschule Würzburg Schweinfurt   *Expected: 2025*
Bachelors of Engineering in Robotics (English)
Member of Studierenden Vetretung, T.St.V Moeno Ripuaria im BDIC

EXPERIENCE

Research Assistant, THWS   October 2023 - Present
Application and Architecture Developer   *Schweinfurt, Deutschland*

· Worked under Prof. Bernd Ankenbrand to renovate the e-learning platform of the university to make it easier for students and professors to track learning goals.
· Created new peer-to-peer data pipelines, aggregated performance graphs and personalised learning suggestions.

Zepto (KiranaKart, YC SS21)   November 2020 - February 2021
Product and Engineering Lead, Employee #1   *Mumbai, India*

· Created the fundamental system architecture and front-facing app for a Y-Combinator startup as the first employee of the founding team. Surveyed shopkeepers and residents on foot to determine the best business plan.
· Scaled the startup from 0 to 100K+ downloads, helping raise $60M in the process. Helped hire the executive team before leaving to finish my education.
